

District of Columbia INVASIVES DAY 2012

Saturday, September 8th, 2012

The DC Cooperative Weed Management Area

Cordially invites you to

Participate in DC INVASIVES DAY, which is aimed at increasing awareness and community efforts toward managing invasive plants and promoting native wildlife habitat in Washington, DC.

The DC-CWMA members, partners and others will host various sites around the District where residents can engage in invasive plant removal as well as learn about invasive identification and restoration. It's a great opportunity to connect with the managers some of these parks to learn more about wildlife management efforts and take part in restoring areas to promote wildlife conservation. There are several sites throughout the city.

Sites (Include):

Rock Creek Park

Dumbarton Oaks Park

Kenilworth Aquatic Gardens

Fort Dupont Park

C&O Canal Nat'l Historical Park

Kingman Island

National Arboretum

A site near you.....

To RSVP click here: [DC Invasives Day](#). For more information and to contact: Laura.Washington@dc.gov. Please contact Laura if you would like to lead a group, suggest a site or learn more about the event.

The DC CWMA is dedicated to restoring the biodiversity of the flora and fauna of DC by working cooperatively to minimize the ecological damage wrought by invasive plants. The DC-CWMA welcomes partnership with District landowners and managers, environmental organizations, community groups and individuals interested in becoming active in invasive plant management efforts in the District. Some current partners include the National Park Service, National Capitol Parks East, District Department of the Environment, the National Arboretum, the University of the District of Columbia Cooperative Extension Service, the District Department of Transportation, the Student Conservation Association and the Anacostia Watershed Society. Click this link for more information on the [DC-CWMA](#).

This effort is funded by a grant from the U.S. Forest Service through the District Department of Transportation – Urban Forestry Administration.
